

Broaden Your Business Opportunities

The TAVALO™ LITE is a new compact kiosk that includes all you need to get started with semi-unattended kiosk solutions. The unit is perfect for an office reception area, hotel foyers, and other information points.

Attract More Users

TAVALO LITE kiosks retain the sleek exterior and small footprint common to other KING kiosk lines and can accommodate a comprehensive array of hardware accessories.

The TAVALO LITE's design is inviting to users and promotes your corporate image. A wide range of configurations provide several options to maximize your kiosk business opportunities.

Designed for 24x7 operation, TAVALO LITE kiosks are highly reliable and responsive to user interaction. We build our kiosks with high performance and reliable technology.

With TAVALO LITE kiosks and our top-notch customer service, your kiosk project is assured of success.

Your Satisfaction

At KING, customer satisfaction is our highest priority. We provide all the required services throughout the lifecycle of your project.

Our Professional Services include: project management, training, custom hardware and software engineering, content development, costing and support.

KING is committed to providing complete robust solutions that meet your requirements.

We are focused on your kiosk business.
